WASHROOM INNOVATION

Unicorn Hygienics is a market leading manufacturer of washroom service products, supplying companies across the world with a range of innovative solutions - these include air fresheners, urinal/WC cleaners & deodorisers, vending machines, vending consumables, urinal screens and an extensive range of sanitary disposal units.

The company's objective is to work with clients to make lives simpler by providing tailored products that have been designed with the end user in mind. Manufactured and assembled in Northern Ireland, Unicorn Hygienics' intelligent washroom products are easily installed and serviced, whilst being designed and built to last.

Unicorn Hygienics consistently manufacture greater volumes than customer demand, and by doing so are perfectly placed to dispatch any size of order quickly and efficiently to anywhere in the world. Offering one of the largest ranges of air freshener fragrances and leading brand vending consumables - Unicorn Hygienics can supply customers with their very own market leading, bespoke washroom solutions.

AIR FRESHENERS

MICROAIR

3 Year
Warranty

Works with
100ml refills

Microair is a durable washroom air freshening system that employs advanced technology to continually deliver lasting fragrance to your chosen area.

The compact Microair is fully automated and programmable, meaning customers can tailor the operating hours to suit their needs and deliver fragrances at maximum efficiency. The Microair can be programmed to dispense a wide range of specially formulated fragrances designed to quickly and effectively neutralise any unwanted odours.

Microair Finishes:

White, Chrome and Black

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

Features

- A choice of 30, 45, 60 or 90 day service intervals
- Fully programmable to optimise usage during working hours
- Customisable with company logo
- Wide range of fragrances available
- Spirit level to ensure an accurate installation
- Wires hidden to stop tampering
- Keyed or un-keyed lock
- Default settings and custom programming
- Countdown to next spray

PURESS

3 Year
Warranty

Works with
265ml refills

A durable and robust air freshening system, the Puresse dispenser utilises advanced technology to consistently deliver a concentrated fragrance of your choice.

Puresse Air Freshener is an efficient solution in large spaces and continuously provides long lasting fragrances.

This fully automatic and programmable air freshener will eliminate bad odours providing a pleasant and cleaner washroom environment.

Puresse Finishes:

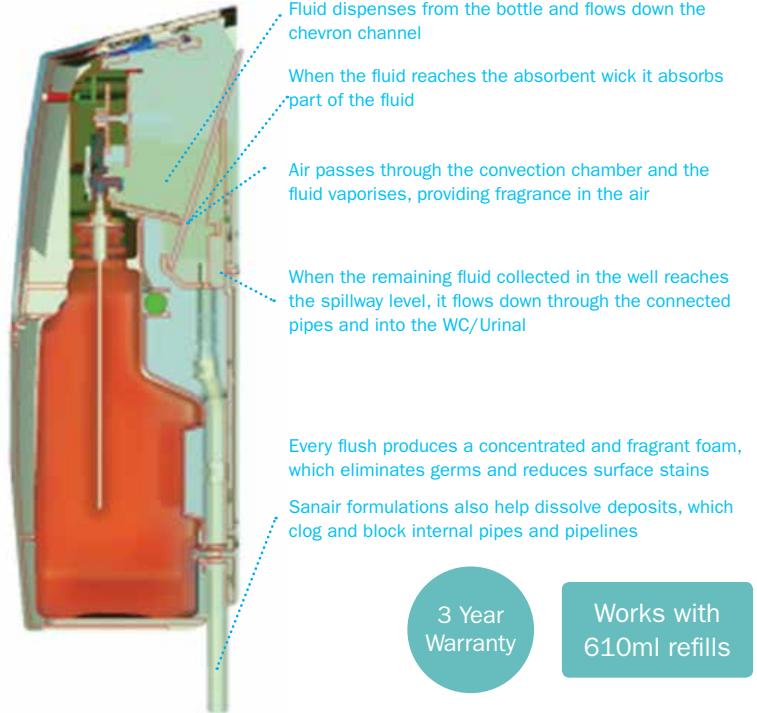

White, Chrome and Black

See unicorn-hygienics.com for further details

CLEANERS & DEODORISERS

3 Year
Warranty

Works with
610ml refills

SANAIR

Sanair Air Freshener and Cleaner & Dedoriser is a revolutionary 2 in 1 dispenser aimed at consistently keeping urinals/WC clean as well as delivering fragrance into the air.

The Sanair is designed to provide a continuous flow of fluid into the urinal/WC, preventing the formation of bacteria whilst releasing a fresh fragrance to counteract any airborne malodours.

Designed with a convection chamber, the Sanair increases fragrance flow in the air throughout your washroom area - making this the ultimate in hygienic dispenser technology.

The Sanair reduces cross contamination and limescale build-up in toilets and urinals, minimising cleaning costs and improving general hygiene.

Features

- Non aerosol air freshener system
- Open system to allow air flow
- Booster fragrance refill: 75ml
- Programmable for 30 or 60 days
- Wide range of fragrances available
- Bio refill range available
- Customisable with company logo

Sanair Finishes:

White, Chrome and Black

See unicorn-hygienics.com for further details

PURESAN

3 Year
Warranty

Works with
310ml refills

The Puresan provides a continuous dose of fluid into the urinal/WC to freshen your washroom areas by eliminating bad odours and reducing bacteria and germs.

The refill formulations are designed to combat the build-up of germs which, normally accumulate on washroom surfaces, including urinals and WCs.

The Puresan dosing system is easily programmable, giving you control over its service frequency. It comes with a wide range of fragrance refills which quickly and effectively eliminate washroom odours, replacing them with a fresh and pleasant scent of your choice.

Features

- Programmable for 30 or 60 days
- Bio refill range available
- Wide range of fragrances available
- Customisable with company logo
- Can be installed up to 1/2 metre below a cistern

Puresan Finishes:

White, Chrome and Black

See unicorn-hygienics.com for further details

FRAGRANCES

FRAGRANCES

Unicorn Hygienics manufacture a wide range of tailored fragrances which have been developed using feedback from customers in over 30 countries. Having created a fragrance range that caters to all markets, Unicorn Hygienics can guarantee a scent that will be both effective and pleasant in any washroom across the globe.

Unicorn Hygienics fragrance refills are at the forefront in scent technology. Rather than masking odours, the fragrances neutralise the active molecules and replace them with a fresh and pleasant scent, immediately reducing the perception of unpleasant odours by at least 70%.

Available Fragrance Ranges

- Classic Collection
- Citrus Collection
- Floral Collection
- Seasonal Collection

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

PURESCREEN

PURESCREEN

Purescreen is a scented urinal mat designed to keep male lavatories fresh and free from unwanted odours for at least 30 days.

Proven to be the best system to control urine splashback, the Purescreen has been designed with an intricately textured surface to reduce any problems normally associated with urinal toilets.

The urinal mats are infused with a choice of fragrance formulations during production, ensuring a pleasant scent for up to 30 days.

Features

- Non hazardous
- Available in 6 fragrances
- Flexible material to fit in all urinals
- Can be customised with company logo

Purescreen Fragrances:

- Senso Mandarin • Seville Orange • Mediterranean Forest
- Cool Mint • Air Concept • Harmony

See unicorn-hygienics.com for further details

DISPOSAL

NAPPY BIN

Designed for the disposal of nappies and suitable for use in washrooms, public toilets and baby changing areas - the Nappy Bin's functional design reduces the spread of germs and maintains high levels of hygiene.

Designed to provide a safe and durable waste disposal solution, Nappy Bin is available in either grey or white, giving you a choice of colour that suits your customer's washroom area.

Available in 50L or 70L capacity, the Nappy Bin is made from an extremely hard wearing polypropylene compound. Designed primarily for functionality, this bin is easily serviced and simple to use when disposing of its contents.

Features

- Available in two sizes: 50L and 70L
- Available in grey or white
- Safe and durable solution
- Waste hidden using a discretion flap
- Can be customised with company logo
- Lid secures firmly in place, avoiding it being opened accidentally

Medibin Finishes:

White and Grey

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

SANIBIN

Encourage repeat customer business and maintain a clean and tidy washroom with Sanibin feminine sanitary disposal unit.

The Sanibin has a slim, compact design which enables it to be placed in the most cramped toilet/washroom areas. It incorporates a lateral opening system which increases the usable capacity, whilst reducing the likelihood of waste blockage internally.

With an in-built discretion flap, your customers can also contain both the contents of the bin and any unwanted odours that may occur – leaving their washroom area clean and fresh.

Sanibin antimicrobial liners now available
- Kills up to 99% of germs and bacteria

Features

- Narrow design fits into most washrooms
- Pedal operated
- Safety lid mechanism that prevents the lid to come off in the event of falling over.
- Can be customised with screen-printed logo
- Carrying handle which allows 4 bins to be carried at one time

Sanibin Finishes:

White, Grey and Black

See **unicorn-hygienics.com** for further details

SANILINERS

The new Saniliner from Unicorn Hygienics is a specially treated sanitary bin liner that contains an active antimicrobial agent which eliminates up to 99% of bacteria and germs.

Using advanced technology, Saniliners provide durable protection against the spread of harmful bacteria and viruses, helping your customers maintain a clean and hygienic environment. The fast-acting antimicrobial agent inhibits bacteria in as little as 25 minutes, whilst diffusing a fresh lemon scent to remove any unwanted odours.

Features

- Fits bin sizes up to 305mm (12") square, or 1220mm (48") circumference aperture
- Fits most sanitary bins
- White opaque film helps obscure contents for discreet removal
- Environmentally friendly
- Lemon fragrance works to help mask odours associated with sanitary waste
- Centered perforation for easy tear-off

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

ULTRA BIN

The Ultra Bin is a compact and robust, fixed bodied bin that is perfect for any area that requires a hard-wearing disposal unit designed to take the punishment of regular use.

Available in both 17 and 64 litre capacities, the Ultra Bin is a cost effective and practical disposal solution in busy public areas. Manufactured from Zintec Steel, the Ultra Bin undergoes a multistage degreasing and washing process, giving it superior durability and ease of maintenance.

Ultra Bin can be ordered in any colour with specific organisational branding available upon request.

Standard Features

- 1mm steel thickness
- Pedal operated
- Base plate support
- Choice of coloured lids

Optional Features

- Vinyl personalisation
- Castor kit

Ultra Bin Finishes:

Available in a range of colours upon request

See unicorn-hygenics.com for further details

SACKHOLDER

The Sackholder model is an exceptionally robust, practical waste disposal unit, available in both 17 and 92 litre capacities.

This bin employs a foot pedal opening mechanism that inhibits the spread of both germs and bacteria, which users may come in contact with when using traditional disposal units.

Manufactured from Zintec steel, the Sackholder undergoes a post production multistage degreasing and washing process, providing superior durability and ease of maintenance throughout its functional lifespan.

Sackholder bins are available with a range of coloured lids to accommodate various waste streams and disposal purposes.

Standard Features

- 1mm steel thickness
- Pedal operated
- Base plate support
- Choice of coloured lids

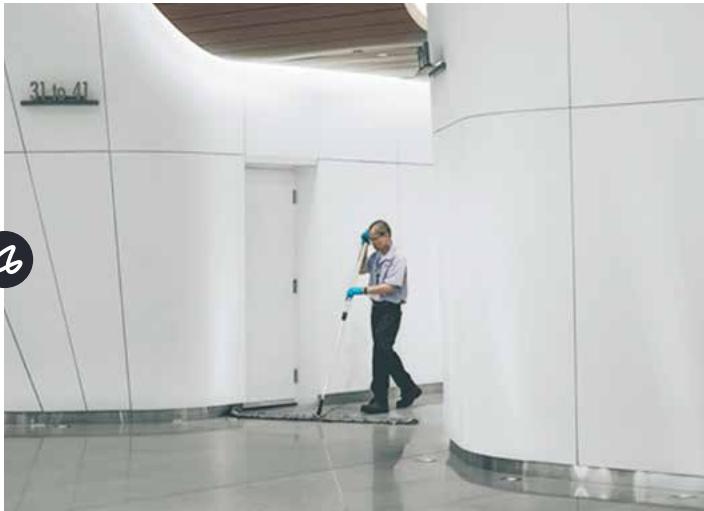

Optional Features

- Vinyl personalisation
- Castor kit

Sackholder Finishes:

Available in a range of colours upon request

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

CUBICAL BIN

The Cubical Bin incorporates a useful front door opening system that aids easy maintenance and simple access to contained waste. Available in both 50 and 70 litre capacities, the Cubical Bin is perfect for areas of high footfall including hospital hallways, public toilets and canteens.

This fire-resistant bin is a cost effective and practical solution for dealing with waste in any busy environment. Manufactured from Zintec Steel, the Cubical Bin possess superior durability and ease of maintenance throughout its functional lifespan.

The Cubical Bin is available in a choice of colours to accommodate various waste streams and to denote specific uses.

Standard Features

- 1mm steel thickness
- Pedal operated
- Base plate support
- Choice of colours
- Front opening door

Optional Features

- Vinyl personalisation
- Castor kit

Cubical Bin Finishes:

Available in a range of colours upon request

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details

MODULAR BIN

The Modular Bin is a removable bodied, fire-resistant disposal unit available in both 17 and 64 litre capacities.

Designed with ease of usage and functionality in mind, customers can quickly remove the main section to easily clean the bin and empty its contents. The bin's base plate section also reduces the chance of leakage – minimising the risk of slippage and injury.

Manufactured using Zintec Steel, the Modular Bin undergoes a multistage degreasing and washing process, giving it superior durability and ease of maintenance throughout its functional lifespan.

Standard Features

- 1mm steel thickness
- Pedal operated
- Base plate support
- Choice of colours

Optional Features

- Vinyl personalisation
- Castor kit

Modular Bin Finishes:

Available in a range of colours upon request

See [unicorn-hygienics.com](https://www.unicorn-hygienics.com) for further details
